Feedback doesn't mean you are not good. I know it is typical to assume, 'they think I am not good enough and that's why they are giving me a feedback.' But, if good can become great, then why not?

Feedback doesn't mean you are not good. I know it is typical to assume, 'they think I am not good enough and that's why they are giving me a feedback.' But, if good can become great, then why not?

02nd December, 2020

Minutes of Meeting
Students Feedback through Google Meet (B.Com-3rd Yr-Honors)

A student's feedback session with the Management was convened online.

Feedback given by the students:-

- Total class strength is 39, out of which 12 students were available for feedback
- All faculties are teaching through PPT's, but students shared that in Research Methodology subject faculty is displaying the book and teaching becomes easy for students to understand online, hence they suggested that all subjects should be taught in the same manner.
- Students want that PDF notes should be shared since they do not have books to study
- 3-4 units are completed in all the subjects
- Some students are not attending the online classes as many times their coaching class time clashes with college class time hence they are less interested in attending online classes. Therefore the strength is low in the class. With this they suggested if online video lecture can be recorded and shared with the students on the group or through Google Meet it will be beneficial for them.
- Students did online certification courses on Coursera like Tableau, C++ programming etc.
- Students would like to have more certification courses to be taken by the college faculty so that they can ask queries if any related to the course.
- Students shared that they (4 students) appeared for an Ahmedabad based placement company KPK, result is still awaited
- Students want regular CDC classes
- They suggested for Internships, last 2 years they were not able to get this opportunity
- Some students are not able to understand GST subject properly, Principal shared that GST subject teaching will be made more systematic or extra classes will be arranged for better understanding of this.

Dear Principal,

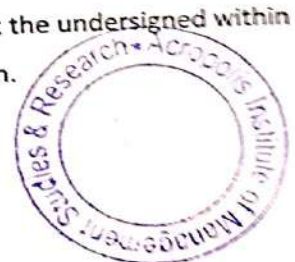

As per the feedback given by the students of B.Com 3rd Year, following suggestions are forwarded by the Chair:

- 1) Please check how student strength can be increased in the online class. As per student's suggestion, regular calls to the parents of those students who are irregular can be done and reason can be found out.
- 2) Also please see if recording of online lectures can be done and deliver to the students for better learning.
- 3) Regular CDC Classes should be conducted for students
- 4) Please address rest of the points mentioned above.

Please take necessary actions for avoiding the complaints of students and report the undersigned within a week with a CC mark to BOG Chairman, Chairman, Vice Chairman & EA-Chairman.
