## INFRASTRUCTURE

DEPARTMENT OF BUSINESS ADMINISTRATION – BBA PROGRAMME

## Program Highlights

Our BBA program is designed to provide a holistic and dynamic learning experience that prepares students for the demands of the modern business world:

**Business Analytics**

**Tally Accounting**

**Digital Marketing**

**Big Data**

## Careers after BBA

BBA degree opens doors to exciting career opportunities in the banking and non-banking financial sectors. Graduates can excel in roles like financial analysts, credit officers, and customer relationship managers, contributing to the backbone of financial institutions by offering innovative solutions and ensuring smooth financial operations.

MNCs actively seek BBA graduates for roles in management, marketing, and human resources. With their global presence, these organizations provide a platform for professional growth, exposure to diverse cultures, and opportunities to work on international projects.

Specializing in financial markets offers a significant advantage, equipping students with practical knowledge of trading, investments, and wealth management. These skills are directly applicable in real-world scenarios, enabling graduates to thrive in roles such as investment advisors, stock market analysts, and portfolio managers.

Certifications in IT-related fields like Business Analytics, Digital Marketing, and Big Data give BBA graduates an edge during placements. These certifications open avenues in tech-driven roles, where their business acumen combined with tech expertise drives impactful results.

Knowledge of export-import (EXIM) procedures and their real-world applications equips graduates to manage international trade operations or provide strategic business consultancy services, ensuring global business success.

## Other Diverse Opportunities

Graduates can explore careers in education, tourism, digital media, transport and logistics, retail and e-commerce, and civil services. The versatile nature of a BBA degree enables students to contribute meaningfully across industries, backed by a strong foundation in business principles.

## Alumni Meet

## Expert Session on Cyber Threat

## Inter-College Competition

## Industrial Visits

Industrial visits organized by Acropolis Institute of Management Studies & Research offer valuable real-world exposure to students, especially those pursuing a Bachelor of Business Administration (BBA). These visits provide students with a chance to observe the functioning of businesses, understand operational processes, and witness how theoretical concepts are applied in practice across various industries.

Some of the Industries the students visited during the year are:

## Excursion

### Adventurous Trip to DhariKotla Island

### Fun Filled Trip to Manali & Jammu & Kashmir

## Skill Development Fostering Student Growth

The department is committed to nurture the holistic development of each student's skill set, equipping them with competencies essential for professional success. This is achieved through strategically designed skill enhancement programs and external collaborations with industry experts. The curriculum encompasses a diverse array of skill categories, including Corporate Behavioral Excellence, Emotional Intelligence & Soft Skills, Linguistic Proficiency, Digital Literacy & Tech Savvy: Equipping students with essential Data Analytics, Digital Marketing, and Financial Technology skills to thrive in the digital business landscape.

**Financial Modeling** - Financial modeling is one of the most highly valued, but thinly understood, skills in financial analysis. The objective of financial modeling is to combine accounting, finance, and business metrics to create a forecast of a company's future results.

**HR Analytics** - HR analytics, also known as people analytics, is the process of collecting and using talent data to improve business and talent outcomes. It can help HR leaders make data-driven decisions about talent, improve workforce processes, and create a positive employee experience

**Data Analytics** - The Data Analytics program is designed to provide students with a comprehensive understanding of data analytics and its application in business contexts. The program consists of core modules covering essential business knowledge and skills and specialization modules focused on data analytics.

**Artificial Intelligence** - With AI, you can make better, faster decisions as it provides you with insights into customer behavior, market trends, and company performance. You can also leverage machine learning algorithms to identify new opportunities and make informed decisions on investments and strategies.

**Advance Tally** - Advance Tally comes with various features and benefits, including streamlined bookkeeping, taxation and compliance management, and more. Advantages of Tally include multi-lingual support, customization, and advanced security. Ultimately, it helps the students to make the decision based on any business's unique needs and requirements.

**Power Skill** - Professional etiquette is about presenting yourself with polish and professionalism that demonstrates you can be trusted and taken seriously. Corporate Etiquette helps us to be thoughtful about our conduct in corporations. It helps us to be aware of the feelings and rights of others.

**Python** - Python is a versatile, high-level programming language known for its simplicity and readability, making it an excellent choice for beginners and professionals alike. It is widely used across various domains, including web development, data science, machine learning, automation, and more.

**Power BI** - **Power BI** Certification validates your skills in using Microsoft's Power BI, a powerful business intelligence tool for data visualization, reporting, and analytics. These certifications demonstrate your ability to analyze data, create interactive dashboards, and provide actionable insights for decision-making.

**Tableau** - Tableau is a skill development program focuses on building proficiency in data visualization and business intelligence. Tableau is a leading tool for creating interactive dashboards and reports, enabling users to analyze complex datasets and present insights effectively.

**MS-Office** - MS Office is a suite of productivity tools widely used in businesses, education, and personal settings. Mastering MS Office as a skill development program equips individuals with essential competencies for managing data, creating documents, and streamlining workflows.

**Digital Marketing** - Digital Marketing Certification validates your expertise in online marketing strategies and tools. It covers SEO, social media, email marketing, content creation, and analytics. It is highly valuable in today's digital-first world, offering practical expertise in promoting businesses, products, and services online.

**Marketing Analytics** - Marketing Analytics as a skill development program equips individuals with the ability to analyze and interpret marketing data to make informed business decisions. It focuses on understanding customer behavior, measuring campaign performance, and optimizing marketing strategies.

**SQL** - SQL (Structured Query Language) as a skill development program focuses on teaching individuals how to manage, manipulate, and query data in relational databases. SQL is essential for working with databases to retrieve, insert, update, and delete data efficiently.

MENTAL CARE IS OUR PRIORITY

In the past few years, it has been observed that the cases of depression, anxiety, addictions, suicides, and other behavioral issues have drastically increased irrespective of age groups, socioeconomic status, and cultures. Psychological Counseling and guidance have become the need of today. Therefore, to serve society and contribute to nation building, a Counseling Cell by the name ACRO CARE has been initiated in the Acropolis Group of Institutions.

This Counseling Cell, ACRO CARE intends to promote individual empowerment, enhance mental health awareness, prevent development of mental health challenges and address socio-emotional problems amongst students of the Acropolis group of institutions. This initiative is one of its kind in central India assisting in alleviation, remediation, and prevention of any kind of distress amongst students. Acro Care will be beneficial not only for the students but will also serve their parents, teachers, and society as well. Acro Care will be operational as a pilot project in this session and will be open to serve the greater community soon.
